It is the opinion that the case will be decided in Mr. Huntington's favor.

A BILL is to be introduced in the Leg A nut. is to be introduced in the Legislature to provide for the punishment, with not less then ten or more than thirty-nine stripes, of a certain closs of thieves, as well as all wis-beaters. The following persons are included: "Persons guilty of the larceny of money or goods and chattels of less value than \$25; persons who feloniously steal from a church, court house or other public building goods and chattels of less value than \$25. and any chattels of less value than \$25. and any chattels of less value than \$25. and any \$25. and house or other public building goods and chattels of less value than \$25, and any person who steals a hog of tess value than \$10. The Sheriff must execute the judgment publicly, and the stripes shall be well-laid upon the hare back of the offender. If the Sheriff fails to execute the judgment strictly he shall be fined not less than \$200 nor more than \$3,000, and shall forfeit his office."

It is hardly necessary to add that there is not much likelihood of the bill becoming a law. If some other punshment

is not much likelihool of the bill becom-ing a law. If some other punishment can't be found for such criminals, then they had better be turned loose. There is but one class of persons—if there is any at all—for whom the lash is a proper punishment, and that is the wife-beater.
